POSITION ANNOUNCEMENT
Temple University School of Pharmacy
Pharmacy Practice Department Faculty Position

Clinical Faculty – Ambulatory Care and Inpatient Practice

The Department of Pharmacy Practice at Temple University School of Pharmacy is seeking candidates for non-tenure track clinical educator faculty positions at the Clinical Assistant or Clinical Associate Professor level. The level of appointment will be based on individual qualifications and professional goals. Candidates will be considered in the following practice areas: ambulatory HIV, ambulatory internal medicine, and inpatient internal medicine. Candidates with a focus in neurology and/or psychiatry will be considered for the inpatient position. Applicants should have a PharmD degree with postgraduate residency training or equivalent experience. The successful candidate will have the opportunity to work with a team of creative educators dedicated to providing quality education to their students, pharmacy care to patients, and who are involved in a variety of research projects.

Responsibilities include establishing an innovative clinical practice, serving as a preceptor and role model for students on interprofessional, introductory and advanced pharmacy practice experiences, pharmacotherapy recitation instruction, and participating in team-taught didactic courses.

Temple University School of Pharmacy has implemented a dynamic curriculum utilizing a variety of innovative teaching techniques. Faculty members have access to state-of-the-art simulated clinical facilities and various technologies to assist them in developing active learning pedagogies. The philosophy of the School of Pharmacy is to foster individual growth and to encourage faculty members to dedicate their time and efforts in areas where they will be most productive.

The School supports a total of four PGY1 and PGY2 residencies, and clinical faculty are involved in mentoring and precepting PGY1 residents within the Temple University Health System. The School’s location on our Health Sciences Campus provides abundant opportunities to collaborate with other health professional educators, clinicians, and researchers. Faculty members are engaged in collaborative research relationships with colleagues in the Katz School of Medicine, the Kornberg School of Dentistry, and the Temple University Hospital and Health System.

Temple University School of Pharmacy is in the midst of unprecedented growth with the goal to significantly enhance its research capabilities. The School houses a Facility for Pharmacokinetics and Bioanalysis, the Jayne Haines Center for Pharmacogenomics and Drug Safety, a cGMP facility, and the Moulder Center for Drug Discovery Research.

Individuals interested in applying for this position are encouraged to send a copy of their curriculum vitae to Michael A. Mancano, PharmD. Chairman, Department of Pharmacy Practice, Temple University School of Pharmacy, 3307 North Broad Street, Philadelphia, PA 19140 (215) 707-4936; michael.mancano@temple.edu
