

# Best Practices

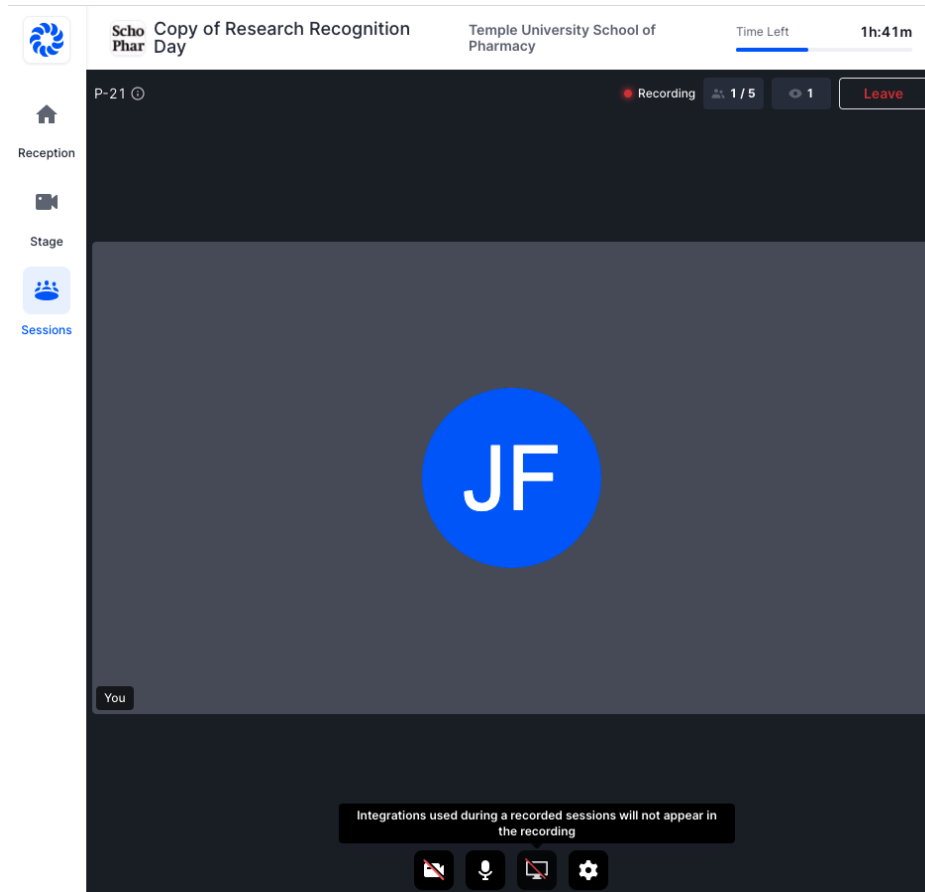

To join a session, click the “Sessions” tab on the left hand side, and select your desired presentation session:

Then click on the blue icon in the center of the black screen, “Share Audio and Video” to be an active participant of the session.

You will then be redirected to your desired room. To share slides if you desire, hit the monitor icon  at the bottom of the screen that has a red line going through it.

Keep in mind only 5 screens can be seen in the session at a time (including any shared screen).

Students: Please arrive a few minutes early to your session to test out the functionality of the platform and also potential test screen share abilities in case you would like to share your slides. Consider having 2-3 members of the group present in the room with shared video and audio. Other team members can be present but not with their shared video or audio because no additional attendees can enter and interact via video. If the room is full (i.e. there are more than 5 screens, recommend any participants that come into the room to leave any questions or comments in the chat for you to address). **Keep in mind that evaluators will be making their way in and out of the rooms so be attentive to how many viewers you have.**

Evaluators: If you join a session and its full, please feel free to engage with the group via the chat.
