GAIN YOUR EDGE
A PharmD degree opens up a world of opportunities to work in patient care, research, business, advocacy, and governance. PharmDs hold roles in:
- hospitals and health systems
- community pharmacies
- pharmaceutical companies
- research organizations
- schools of pharmacy
- health insurance companies
- United States FDA
- governments
- medical mission organizations

Unique pathways to enhance your academic journey
- Specialty elective tracks in Clinical Trials, Drug Safety, or Advanced Clinical Practice
- A Master of Science Degree in Global Clinical Pharmacovigilance Regulations (GCPR)
- Dual PharmD/MBA Degree via our partnership with Temple's Fox School of Business

Real-world learning
Onsite and in labs, mentors and students work together to keep practice and science moving. They do basic research, drug discovery, policy recommendations, translational medicine, & more.

On-location clinical training happens in:
- Alaska
- Ecuador
- Guatemala
- Vietnam

NEXT STEPS

We welcome prospective students from all academic backgrounds.

Many students complete an undergraduate program prior to pursuing a PharmD. Others complete just the PharmD program prerequisites at an accredited college or university, so that they may enter the PharmD program sooner.

Articulation agreements with the following local institutions provide a seamless transition into our professional program.

• Bloomsburg University of Pennsylvania
• Bucks County Community College
• Camden County College
• Chestnut Hill College
• Eastern University
• Montgomery County Community College
