

## **Spring 2026 - RAQA Graduate Program – January 20, 2026**

### **ONLINE (ZOOM) COURSES**

*Note: Due to visa requirements, international students must attend courses on-campus, which includes taking online courses in the Fort Washington computer lab.*

Temple University uses Zoom as the teaching platform, which is provided for free to all registered Temple students.

#### **Required hardware**

RAQA online courses are interactive, so you must have a webcam and microphone to participate. These are essential to provide an excellent online classroom experience for all students. Many laptops have built-in webcams and speakers. If you plan to use a device that does not, you are required to purchase them.

If you're a new student taking an online course, watch the [online course tutorial](#) and include the code at the end on your registration form. Next, schedule a short Zoom meeting with David Brickett ([dbbrick@temple.edu](mailto:dbbrick@temple.edu)) or Jessie Chen ([jessie.chen@temple.edu](mailto:jessie.chen@temple.edu)) to use our online technology. This ensures that everyone knows how to participate on Zoom during the first class meeting.

Proctorio is an online proctoring service that enables you to take exams at almost any location. If a course uses Proctorio, all students in the course must use that service.

**Proctorio exams require a laptop or computer.** Chrome notebooks, iPads, cell phones and other devices do not work. You must have **administrative access** to your laptop or computer, which means you can install software. Work computers may have built-in firewalls that prohibit software downloads. Please check this before registering.
